

Our Quality Policy

"General Metal Coatings is committed to meeting the needs and expectations of our customers by complying with stated requirements, following determined objectives and continually improving systems effectiveness."

We recognize and support the needs for quality and continuing improvement by maintaining internal activities through adherence to strict supervision and controls. We feel that this ongoing program will provide the strongest assurances that our customers' product quality needs are achieved.

- **Measurement, Analysis, and Improvement**
- **Product Realization**
- **Resource Management**
- **Structure Management Responsibility**
- **Quality Management System through documentation**
